

A Level Results Better Than You Expected?

Are Your Results Better than you Expected?

If they are, and you have **exceeded** your first choice offer, you can use **Adjustment** to apply to a different course or university.

- The option for Adjustment will appear in **Track**.
- You will have to make a fairly quick decision and can only accept **one** course – make sure it's the right one
- Vacancies aren't **advertised**, you will need to **find** a course and contact the **admissions tutor**; explain that you want to apply through Adjustment but don't accept an offer until you are **sure**
- Check course details carefully and be clear about **why** you want to do that course at that university
- **Get advice!**
- Have your **Personal ID number** ready when you phone
- Try and visit to find out **more**
- **Don't forget** to ask about accommodation
- Your Unconditional Firm (UF) choice will be **safe** until you definitely decide on a different course
- If you **do** accept a different course, sort out your accommodation **immediately** and tell Student Finance England

Remember – if you change your university, contact their accommodation office immediately!
